An Important Message

Dear Reader.

The following essay has been written for one reason, and for one reason only.

It is a desperate attempt by the writer to try to avert a coming catastrophe,
and every word that follows is **the absolute truth**,

even so, please do not blindly believe the words that are written on these pages,
instead, the writer would ask that you carefully consider each statement and analyze each claim,
and try to prove them to be incorrect.

If you are unable to disprove the writer's assertions,
and if you cannot then bring-about an urgent change in our leaders, and in their dangerous policies,
then a cruel and painful ending lies in wait for you, and for those for whom you care.

But first **A Bedtime Story**

Once upon a time, many-many-years-ago, there existed a country called **Arabia**.
Arabia was populated by many guileless nomadic tribes, one such tribe being named **Al Saud**.*

* pronounced Al Sowd, (with 'ow' as in 'how'.)

At a similar time, a Scotsman, -named James Young, discovered a substance called **'Oil'**.

This resulted in some very clever people inventing an **'Internal Combustion Engine'**
which wealthy people quickly discovered was good for powering their **'Horseless Carriage'**.

When the Americans learned of the horseless carriage, they, -of course, all wanted one.

In the meantime, oil had also been discovered in Arabia.

Now this internal combustion engine thing, -that powers the horseless carriage, **eats oil**,
and this is where the chicanery and the duplicity of the Americans comes to the fore.

When they learned that oil had been discovered in Arabia,
the Americans, -using military force, **invaded** Arabia and selected **the Al Saud tribe**
and appointed them as **the American-puppet-government in Arabia**,
and for no other reason than to ensure that America had secured the cheap supply of Arabian Oil,
and they used military force to overcome and subdue the protests of the other tribes.

Since that day, Arabia has come to be known as **'Saudi Arabia'**,
and **the Al Saud tribe** have continued their rule by cruel and ruthless means,
-all the time supported by the mighty American War Machine.

Some fourteen years ago*, the Al Saud 'family', -the American-installed puppet-government of Arabia, were advised that the reserves of **mineral oil** that lay beneath their country **were becoming depleted**, and that they could expect that **their oil wells would run dry by about the year 2028**.

This caused the Saudi rulers to embark upon a course of education and industrialisation that would change their country into a world leader, -totally independent of oil, **before** the year **2028**.

Fourteen years ago*, women in Arabia were not permitted to leave the house unless accompanied by a senior male relative.

Fourteen years ago*, Arabian women were denied education and were not permitted to drive vehicles. **Today Arabian women are amongst the world's best educated, and they now drive cars and trucks.**

Many of this planet's oil fields have already run dry, and many others are about to do so. The end of Arabian Oil will herald the end of **all** mineral oil on this planet.

'No more oil' will mean 'No more food'.

No more food spells 'hunger', -and hunger leads to 'cannibalism'.

It will be the babies, and the little kids, who will be first into the pot.

End of Bedtime Story.

* in 2008.

next, **Some Facts about the mighty American War Machine.**

The exact size of the American War Machine is known only by the Americans themselves.

That which follows is what the writer believed to be the case in April 2022.

(Source U.S. Government Information Services.)

Nuclear Bombers	-	Sixty-Six
Fighter Aircraft	-	Three Thousand, Four-Hundred
Helicopters	-	Seven Thousand and Fourteen
Transport Aircraft	-	Six-Hundred and Seventy-Seven
Warships	-	Four-Hundred and Seventy-Five
Supply Ships	-	One-Hundred and Thirty-Two
Battle Tanks	-	Two-Thousand, Five-Hundred
Vehicles of various types	-	Hundreds of Thousands
Miscellaneous Oil-fuelled Items	-	Tens of Thousands

Each and every one of them is powered by a Mineral Oil product.

Without Mineral Oil, none of them are going anywhere.

America's Sixty-Eight nuclear-powered Submarines, and Eleven nuclear-powered Aircraft Carriers are each dependent upon Diesel Generators. **Without diesel oil they cannot safely leave the quay.**

Mineral Oil is unquestionably of critical importance to America's existence.

and now. **The Truth and the Reality**

The Truth is. This planet's supply of mineral oil will not last forever.

With things as they are today, -perhaps by as soon as the year 2030, it will all be gone.

The Reality. Without oil, 'the mighty American War Machine' would be impotent.

America itself would be impotent, exposed, and vulnerable,

-and America has more enemies than the reader can poke a stick at.

**Having the biggest, the most powerful War Machine that this planet has ever seen,
America will not allow itself to feel the pain of a shortage of oil.**

If it was possible,

America would 'this very day' seize what remains of this planet's supply of mineral oil

but thankfully, one thing presently stands in their way.

That one thing is the combined military might of China and Russia.

Not for one moment should we harbour the thought that the **American Establishment** are fools, nor should we ever think that they are not fully aware of the situation.

They have been fully aware of it for many years and their plans are already well laid.

The mighty American War Machine has Military Bases in the vicinity of every oil field.

They are well-primed and ready to pounce.

They have military bases in Britain, in Australia, in Europe, in Asia and on every other continent.

**America has 'unbreakable control' over the governments of most of the world's countries.
The British and the Australian governments are perfect examples of American puppets.**

For many years, America has been trying hard to establish puppet-governments in both **Iran** and **Venezuela**, and for one reason only, -to gain control of the oil-fields of those countries, -and America is not yet done because, when the Chinese and Russian armies and economies are each 'destroyed', Iranian and Venezuelan oil will be America's for the taking.

**On that day, -when America seizes what remains of this planet's supply of mineral oil life, -for the rest of us, will change dramatically, -and it will change for the worse.
That will be when we will learn the meaning of hunger, cruelty, and death.**

On that day, -when America seizes what remains of this planet's oil, life, -for us, will change.

In countries outside of America, transport, -by land, sea, and air, will grind to a halt.

Internal combustion engines will not function without the products of-oil.

Ships and aircraft will not move without fully functioning engines.

People, foolish enough to travel overseas, will be forever trapped where they are.

You would not want to be in their shoes.

Container-ships, -laden with exported food, will not arrive at their destinations

and, -thanks to 'Globalisation', many countries, -including Australia,

have become unbelievably dependent upon imported food, -check your labels.

Even worse, with no fuel for their machinery, farmers and producers

will be unable to plant crops, or to harvest them, or to transport animals to market.

The locomotives that haul the coal from the mines to the electricity generating stations run on oil.

Without oil, the delivery of coal, and the subsequent generation of electricity will cease.

With no fuel for their vehicles, road and rail transport, -of whatever food there is, will end,

and any food that did exist would be hi-jacked long before it reached its destination.

With no food on their shelves, shops and supermarkets will simply close their doors.

Gangs of hungry men will then roam the streets, kicking-in doors, looking for hoarded food,

-and 'your door', dear reader, will be no exception,

-and those hungry men will use whatever violence as is necessary.

If they are unable to find any food, they will likely eat you and your children.

On that day, Police Stations, Police Vehicles and Court Houses will burn,
and the Police will disappear as quickly as a morning mist on a hot summer day.

On that day, money, gold, and every other asset will become worthless.

In countries outside of America, -and with nothing to feed to their animals,
'pet owners' will be forced to either kill their 'pets' and eat them
or, -as the vast majority of faint-hearted and spineless pet owners amongst us would do,
they will turn their animals loose to fend for themselves.

**The turned-loose-dogs will form into countless packs.
Packs of hungry, vicious-animals, with bone-crushing jaws. Dogs with no fear of humans.**

**The packs of hungry dogs will savage cattle, horses, sheep, goats, and wild animals,
-leaving part-eaten, maggot-infested carcasses littering the country.**

No doubt they will do the same to us humans.

**Packs of hungry dogs will savage and devour those humans at the edge of the crowd.
Children and the weak will be the easiest of victims,
-and being eaten alive will be a most unpleasant way to die,
yet many millions of people are doomed to die this way, -perhaps even including the reader.**

With no food to give to the prisoners, prison gates will be thrown open.
Prisoners will not be left, locked in their cells, to starve to death. Someone will release them.

You would not want to be around when those hungry, nasty, angry criminals get out.

On that day, all men will become equal, -but some men will be more 'equal' than others.

On that day, scores will be settled, and people will die by the thousands.

The seizure of this planet's remaining oil supplies by America is now fait accompli,
-but there is just one thing that is holding them back,
-and that is the combined military might of both China and Russia.

Before America can steal the remaining supplies of mineral oil
they must first '**disable**' both China and Russia.

It is America's plan to wipe both China and Russia off the face of the planet
because they each stand in America's way,
-and America's plans are simple and are well advanced.

America has adopted two separate strategies in order to achieve this.

America's first plan is to use 'NATO' as a weapon against Russia.

NATO is an American invention, which allows America to station its troops and nuclear weapons on British and European soil, the cost of which is paid for by the British and European taxpayers.

For America, the Ukrainian elections could not have come at a more perfect time.

This gave them the opportunity to ensure the election of a president who would do their bidding and, -in that Jewish comedian, **Volodymyr Zelenskyy**, they had the perfect puppet.

Persuading him to dishonour Ukraine's agreement with Russia and join NATO was easy.

Never before had Zelenskyy felt so important, -he was like putty in their hands.

This allowed nuclear-armed cruise-missiles to be positioned along Ukraine's border with Russia, -with the missiles only minutes away from destroying Russia's cities and military bases.

Betrayed by Ukraine, Russia was left with no alternative but to try to protect itself, in order to avoid being annihilated by America and its puppets.

This led to the present 'conflict' which is being intentionally fuelled by America and its puppets, with the sole intention of destroying Russia's military capabilities and its economy.

The entire blame for the death, the injury, the suffering and the destruction that has resulted, unquestionably rests with the Jew called Zelenskyy, with the war-mongering Americans, and with their British, Australian and newly-found European and Scandinavian puppets.

In preparation for the destruction of China, the Americans created an evil called 'AUKUS', 'a one-sided alliance' between America and its Australian and British puppets, -coined from the initials of the words- Australia, United Kingdom, and United States (of America).

It was invented by the Americans who then convinced the incompetent Australian government that 'Australia critically needs nuclear-powered submarines, stationed off the coast of China', in order 'to defend itself from annexation by neighbouring Indonesia', or from 'invasion by the starving Asian hordes'.

Neither of which is as fanciful as the reader may think.

The entire cost of these nuclear-powered submarines, -Three-Hundred and Eighty Billion US Dollars, is to be borne by Australian taxpayers. It will guarantee Australia's poverty.

The Australian nuclear-powered submarines will be equipped with American nuclear missiles, and they will be positioned on the seabed along China's coast-line, only minutes away from turning China's cities and military-bases into nuclear waste, but they will be crewed by American submariners flying the Australian flag, thereby turning Australian cities into prime Chinese nuclear targets.

And the people of Australia expect China to suffer such undisguised aggression, and to still buy Australian materials and to supply Australia with inexpensive well-made goods.

In the same way that America is using Australia to station its nuclear-armed submarines on the seabed along the coast of China, only minutes away from destroying China's cities and bases, America also plans to use the Taiwanese people, the Japanese and the South Korean people, to further encircle China with nuclear-armed cruise-missiles that will be stationed on their soil, with the Taiwanese the Japanese and South Korean taxpayers paying the cost of the missiles, and with each missile also only minutes away from destroying China's cities and military bases.

**America has a 'protective dome' over it's cities and military bases.
Japan, South Korea, Chinese-Taiwan and Australia do not.**

Every missile that crashes down onto Japanese, Korean, Taiwanese and Australian cities and bases will be one less for the American protective domes to have to deal with.

**By allowing themselves to be continually taken-in by America's cunning and duplicity our incompetent and grovelling politicians are leading us down the pathway to extinction.
It will be an extinction that only the Americans and their Jewish masters will survive.**

Prior to the election of Zelenskyy as the President of Ukraine, there was peace and contentment. Before that election, the Ukrainian and Russian people enjoyed friendly and harmonious relations. They traded with each other, they crossed each other's borders, they engaged in sport. Russia was supplying much of Ukraine's and Europe's material needs.

There was a legal binding treaty in which the Russians guaranteed Ukraine's security and, -in return, the Ukrainians undertook to never join America's NATO, thereby preventing America from positioning nuclear-armed cruise-missiles along Russia's border.

The words that you have just read are the absolute, undeniable truth.

But, -in order to destroy Russia's might and steal what remains of this planet's stocks of mineral oil, America needed those nuclear-armed cruise-missiles stationed along Ukraine's border with Russia.

The Ukrainian elections were just what America needed, and American duplicity and money ensured that 'that Jewish clown of a comedian Zelenskyy' was elected President of Ukraine.

The now 'President' Zelenskyy eagerly agreed to Ukraine joining NATO.

The Ukrainians had now broken their binding agreement with the Russians.

This left Russia's President Putin with few options. You know the rest.

It was America's manipulation of Ukraine's elections, -and the appointment of Zelenskyy, in their determination to incorporate Ukraine into NATO, that caused the conflict.

As America's Secretary of State, Blinken is alleged to so succinctly have said,
"When we wipe-out Russia and China we wipe-out our debts.",

-and when America seizes what remains of this planet's stocks of mineral oil they will not only have wiped-out Russia and China, they will wipe-out the rest of us, exactly as the Jews have planned it.

We will either starve to death, or we will be eaten by dogs.

**That will be the day when the Jews will inherit the Earth,
-something that they have long been planning for,
and they owe it all to our incompetent, grovelling, American-boot-licking politicians.**

Today, in November 2022, America's debt is **Twenty-Eight point Five Trillion Dollars.**

28,500,000,000,000 American Dollars,

and they have no intention of ever paying it back.

If they seize the remaining oil, they will not have to repay it.

For the latest debt figure, try searching-'**World Debt Clock. Real Time**'.

Whilst you're at it, you might as well check-out **The Doomsday Clock.**

When America succeeds in destroying both China's and Russia's military might, they will seize what remains of this planet's stocks of mineral oil, and they will not share it with 'their so-called Allies and Partners'.

Their 'Allies and Partners' having served their purpose will be dispensable.

If they share the oil with others, there will be less oil for themselves.

Once seized, they will not share it.

**Their 'Allies and Partners' will starve to death, along with the rest of us,
-or they will be eaten by their dogs.**

Without oil, the rest of us will die, -but not all at once.

In not so many days, many people will die, -murdered and eaten by their fellow citizens.

Many others will be killed and half-eaten by the packs of starving turned-loose dogs,
but there will be a bright side to the suffering and the misery.

The really good thing that would come from America's theft of the remaining oil, is that the human population would soon be reduced from over Eight Billion to less than One Billion.

This will quickly result in a massive reduction in the pollution of our atmosphere which will, -in turn, -eventually, effectively slow down the warming of the planet, and hopefully will result in the survival of those few of the planet's animals and birds that managed to avoid being wiped-out by the turned-loose, -now turned feral, cats and dogs.

On the down side of course, -for us persons who live in countries other than America, those of us who survive the longest will enjoy the company of an oversupply of rotting corpses, not to mention the inevitable accompanying odour, disease, and flying insects,

but eventually what remains of us will crumble to dust, -as will our monuments, and one day, no-one will know that we were ever there.

It is unquestionable however, that the Americans will keep some citizens alive in some countries in order to supply the Americans, -and their Jewish masters, with particular foods or materials.

Those citizens would, of course, work as slaves and without payment.

The reader has already witnessed the cruelty and the inhumanity that **the Israeli Jews** extend toward **their Palestinian captives**, and toward their Syrian and Lebanese neighbours.

The reader is already familiar with **the War Crimes committed by America during their failed invasion of Vietnam** where **One point Six Million innocent, defenceless Vietnamese were ruthlessly slaughtered, and many more left crippled.**

It was no different with America's failed invasion of Afghanistan, **so do not expect that they will behave differently when you are their slave, and they your master.**

The alternative, -should the Americans fail to seize the remaining stocks of mineral oil, will be the continued pollution of the land, the seas, and the atmosphere.

The human population will continue to grow, as will the uncontrolled associated development.

The heating of the planet will continue, forests will burn, glaciers and ice-caps will melt, and we will be set on an unstoppable path to the destruction of all life on this planet.

We will turn this beautiful planet called 'Earth' into 'A Lump of Lifeless Rock'.

These are the facts. What happens next is up to **You**, dear reader.

But you must not blame the Americans, nor the Jews, -it is called '**human nature**'.

If we were in their position, we would do exactly the same thing,

-that is a fact of life.

Wealthy, intelligent people, -together with the traitors in our midst,
will now migrate to America but, unless they are Jewish, they may find the door to be locked.
Time to start worshipping Yahweh. (Oops. Should have said YHWH.)

Some more news, -of late July 2024.

Rishi Sunak, the recently failed British Prime Minister, is now reported
as having purchased a mansion in America, and, -with his family,
is said to be planning to abandon Britain.

(Just thought you'd like to know.)

In respect of the Conflict in Ukraine

When Zelenskyy eagerly complied with America's demands, and agreed to join NATO, he also agreed to station American nuclear-armed cruise missiles along the border with Russia, and he broke a long-standing agreement that existed between the Ukrainians and the Russians, -and 'that' effectively declared war upon the people of Russia.

The British puppets, and the Australian puppets, eager to dance to America's tune are, together with America, equally responsible for the death and the destruction being inflicted upon both the people of Ukraine and the people of Russia, and they are each also guilty of declaring undeclared-war upon the Russian people.

As President Biden is said to have told the now deposed British Prime Minister Johnson in one of their weekly telephone conversations-

“It is better that we get the Ukrainians to fight our war against Russia.”

“Better that the Ukrainians die than do our men.”

No doubt Biden would have had something similar to say to his Australian dupe.

America makes the bullets, Zelenskyy shoots them, and the Ukrainians and the Russians do the dying.

The 'war' in Ukraine will continue for as long as America dictates, because America will not allow Zelenskyy to negotiate a ceasefire.

It is unquestionably America's intention that 'the war' in Ukraine will continue until such time as Russia's military power and its economy are completely destroyed.

As a result of this American policy, many, many people, both in Ukraine and in Russia are going to unnecessarily die, -one might say 'be murdered' by the Americans and their puppets, and an unbelievable amount of property is going to be unnecessarily destroyed, -by the same people.

Only when Russia's economy is crippled, -and its military reserves exhausted, will the 'war' end, and it will be the citizens of Ukraine, and their children, who will have paid the price, **and the entire blame will lie at the feet of the people of America, Britain, Australia, and America's other puppets, -for they allowed it to happen.**

It would then be almost certain that, by this time, **-which is closer than you may think,** -with China encircled by American and Australian nuclear-armed submarines, and by Japanese, Korean, and Taiwanese based American nuclear-armed cruise missiles, that the Americans would then feign a peace-seeking strategy in order to put the Chinese off guard, before launching a surprise attack that would destroy China's military bases and its cities, leaving the Chinese little time to launch a reprisal.

This would explain the reason for the present anti-Chinese resentment that is being generated by the Americans and by their Australian puppets, **-Marles, Dutton, and Albanese.**

The coming inevitable-collapse of both Russia's economy and its military power will herald the day when our politicians, -both past and present, with their corruptly-acquired Secret Tax-Haven Bank-Accounts, will flee to America, -following in the steps of the equally treacherous Shah of Persia.

Whether the non-Jews amongst them will be welcomed, or not, remains to be seen.

One might imagine that our corrupt politicians have already quietly, -and secretly, begun to prepare for their planned escape to America, by selling-up their present-owned 'investment properties' and discretely transferring their assets, in order to acquire their new American residences.

It will be interesting to see how many of our politician's hangers-on and relatives go with them, -and of how many of them will be abandoned.

The citizens of those countries that identify as America's 'Allies and Partners'
in America's war against Russia,
are being led by their grovelling, American-boot licking politicians
down the pathway to an unpleasant death, followed by oblivion.

It is the price we must pay for our ignorance, our apathy and our stupidity,
and today we are one step closer to the Nuclear Holocaust,
-only one step away from the point of no return.
and we owe it all to our lazy, incompetent, and treacherous politicians.

It is the same old story. Korea, Vietnam, Iraq, Afghanistan, and now Russia.
The war-mongering Americans lack the courage to do the invading by themselves
so they drag the gullible-mugs, -the British and the Australians, into their adventures,
and now, in their unprovoked and unjustifiable war against Russia
they have also dragged-in the Europeans and the Scandinavians,

-and it is all about 'the last drops of oil'.

~~—End of Story~~

This page was added on 06.09.2023.

With the recent signing of 'the U.S.-Vietnam Mutual Defence treaty',
-an agreement designed solely to benefit the Americans
and to allow them to legally base their nuclear-armed cruise missiles on Vietnamese soil,
it brings the encirclement, -and the destruction, of China even closer.

With America's present Ukrainian-British-Australian undeclared war against Russia
having almost brought both the Russian economy and its military to their respective knees,
the seizure by Jewish-controlled America of the remaining stocks of mineral oil,
has come one step closer to reality,
-and so too, has the inevitable Nuclear Holocaust.
-and so too, the packs of hungry, turned-loose dogs with bone-crushing jaws.
It is the price we must pay for our apathy.

~~End of Story~~

'When' it happens, it will be well deserved,
because we will have brought it upon ourselves.

All made possible by the stupidity of our servile, grovelling 'American-Puppet' governments.
They are solely to blame and their heads must roll!

The Ukraine saga could not have happened without their compliance,
and every politician who supported America's use of Ukraine to destroy Russia is guilty.

But it was we who elected these clowns.
There is no-one else to blame.

It is now that we are faced with a choice, dear reader.

We can either hope that the writer has got it wrong,
and go back to sleep,

or

we can try to do something about it,

like- **Spreading the word !**

End of Story

A Postscript follows.

Postscript

20 February 2025

The reader, -as with the writer, can be excused
for being confused by Donald Trump's unexplainable behaviour
in respect of his new-found disdain for the Ukrainian President Zelenskyy,
and his seemingly ultra-close friendship with Russia's President Putin.

Unlike his predecessor, -President Joe Biden,
who was under the total control of the Judeo-American Establishment,
Trump clearly appears to be a free agent, but give it time,
-the Establishment has ways of dealing with such situations.

Is anyone running 'a book' on it ??

End of Essay.
